## Men who are Making Logan

MEALON SPRINGER THE LYRIC THE OAK

### THATCHER BROTHERS AND WILLIAM SPICKER

Next to having faith in humanity is to have faith in your home town, and the best way to show that faith is by your works. Measured according to this standard all good citizens must concede to George W. and B. G. Thatcher and William Spicker first place in this community.

These progressive citizens had hardly finished construction of the finest office and department store building in the city, than they began planning for a new \$200,000 theatre.

With building material high, and money conditions such that the ordinary individual would shrink from such a venture, these gentlemen were undaunted and early in the spring of the current year began work on this magnificent structure. The work is being pushed as rapidly as possible and it is hoped that late in the present year or early in the new year its doors will be opened.

G. W. and B. G. Thatcher need noology. The work of their hands and the many evidences of their splendid talents speak for themselves. It was so with their distinguished father. With the talented William Spicker associated they make a trio that has meant and will mean more for the social uplift of Logan.

They are real builders and as such are deserving of the praise and commendation of all good citizens.

## BENSONISMS AT THE B. Y. C.

A much appreciated piano duet by Miss Faun Weaver and Miss Eileen Thornley prepared the teachers and students of the Brigham Young College for the address of Mr. E. Taft Benson, Cashier of the Farmer's and Merchants' Bank, in Devotional Services yesterday morning. The speaker first entertained his audience by a series of apt stories and personal incidents, then took occasion to say some serious things, which proved that he had, not so long ago, been a student himself.

"Don't try to get through life without ideals. It is the ideals put over daily into reality that lifts the labor of brain or brown out of the ruts of drudgery, and sends it spinning along the paved highway of zeal and enthusiasm."

"Utilize every moment of your time." That's the only way to succeed in this day of strenuous competition. Don't imagine you can copy lessons or waste opportunities today, and later in life get to the top of the hill by hitching to some other man's six-cylinder pull.

"Toe the mark with every pre-

paration, every appointment. Think twice before you yield to any temptation to skip classes or play hooky. It is the carelessness and indifference of nineteen men that gives the twentieth his opportunity to rise."

## YANKS WIN THE OPENING GAME

By a Score of Three to Zero the Yanks Take the First Game. Babe Ruth was There But Could Not Get A Homer. A Great Day For New York's Rivals.

In the first game of the 1921 World's series the New York Yankees triumphed over the New York Giants taking the game by the score of 3 to 0. Mays, the Yankee pitcher was invincible permitting but five scattered hits throughout the game.

NEW YORK, Oct. 5 — The contest to start at two p. m. will be one of dash, speed and resourcefulness as exemplified by the Giants, against the aggressiveness of the Yankees.

Never in the history of world's series were two teams so evenly matched. Led by Ruth, around whom centers the series hopes of the Yanks and the problem of the Giants, the Americans virtually slugged their way to the 1921 pennant, while McGraw's men, with apparently greater odds to overcome achieved victory through daring and cleverness.

The Giant hurlers probably will find the batting combination of Miller, Peck, Ruth Meusel, Pipp and Ward; one of the toughest they ever have been called upon to solve. Peck is always a dangerous hitter, and Miller, who precedes him, is by no means easy.

Then Comes Ruth. Then comes the mighty Ruth. To pass him will mean facing the fearful "Bob" Meusel and to pitch to him means that at any time the ball might go sailing over the stands for a homer.

Behind Meusel and Pipp comes Ward, McNally and Schang, and none of them can be taken too lightly. Experts believe the Yankee batting order is one of the most formidable in series.

Then the Giants, Frank Frisch at the third sack has no equal in either league. He is a veritable flash on the bases. On the defense Frisch shows remarkably and at bat he is a terror for any pitcher. Frisch hits when hits are needed. He is the individual star of the Nationals.

George Kelly, the elongated Giant first baseman, holder of the 1921 home run record in his league, and Young, Burns and Bancroft, with Snyder, the regular backstop, form a batting bunch that will give the Yankee pitchers their greatest trouble. The entire McGraw organization is noted for its daring on the bases.

Mr. William Griffiths of Smithfield was in Logan during the week trying to locate some of the politicians who promised him a job. Mr. Griffiths does not want to be put in the position of the hungry office seeker, but would like some measures of justice for Smithfield. It appears that Smithfield did not get a place on the County ticket, and that in lieu of that it further appears that the organization promised Smithfield whatever they wanted by way of appointments. After the election Smithfield asked for the County Fish and Game Warden, and asked that it be given to Mr. Griffiths. It is said that the "bosses" said they would see that he was appointed, and it is for a delivery of the goods that Mr. Griffiths seeks. Just how he can get it is a conundrum as it declared that the "bosses" gave the job to Mr. Ted Seeholzer, an appointee of Governor Simon Ramberg. A great many of the local Republicans are sympathizing with Smithfield and think it is high time that something was done. Smithfield is surely entitled to something and should get it.

The Logan Hardware Company received a fine lot of samples of sporting goods from the Rawlings Co. which they will show the balance of this week. It certainly is a fine assortment.

## AMENDMENT BROUGHT LEVY DOWN ONLY IN SIX DISTRICTS

All Others Have Increased Rate, Despite Raise By State

Only six of the 40 school districts in the state have lowered their local school tax levies sufficiently to offset the increased levy made for state schools under the authority of a constitutional amendment voted for by residents of the state at the general election in 1920. A compilation made by the state board of equalization shows that in all districts excepting Daggett, Rich, San Juan, Wayne, South Sanpete and Logan City the taxpayers will be called upon to pay a higher rate for maintenance of schools than they paid last year.

It was thought at the time that the constitutional amendment was proposed contemplating that \$25 be provided for every child of school age in the state that the local levies would be cut proportionately, especially in those districts which would receive greater benefits from the state school fund than were paid in by the taxpayers residing in the district. This amendment necessitated that the state levy be increased from 2.6 mills to 4.7 mills. The probable reduction in local levies was used as one of the strongest arguments in favor of the amendment. Yet despite the declining costs of various items entering into the upkeep of the school most districts have provided for increased levies.

Districts showing an increase are Beaver, 3.45 mills; Box Elder, 1.4 mills; Cache, 3 mills; Carbon, 1.1; Davis, 1.1; Duchesne, 1.8; Emery, 3.1; Garfield, 1.1; Grand, 3.6; Iron, 1.7; Juab, 6; Tintic, 2.7; Kane, 3.1; Millard, 2.8; Morgan, 4.1; Piute, 3.1; Salt Lake City, 2; Granite, 3.4; Jordan, 3; Murray City, 2.1; North Sanpete, 2; Sevier, 1.4; North Summit, 2.1; South Summit, 5.6; Park City, 1.8; Tooele, 4; Uintah, 4.1; Alpine, 4; Nebo, 1.9; Provo, 2.1; Wasatch, 2.1; Washington, 2.1; Weber, 4.06; Ogden City, .5.

In the districts where the levies have been lowered the decreases are: Wayne, 1; South Sanpete, 1.2; Logan, 1.5; Daggett, 1.3; Rich, 4; and Jaun, 9.

Fourteen of the counties in the state have decreased their tax levies, while 11 report an increase. In this respect the local valuation drop is held to be partially responsible. Decreases reported are as follows: Box Elder, 1.35; Cache, .6; Daggett, 1.5; Davis, 1.1; Duchesne, 1; Emery, .8; Garfield, —; Kane, .2; Millard, .1; Morgan, .2; Piute, .4; Rich, —; Sevier, 1.2; Tooele, .1; Uintah, 1.6; Washington, —; Wasatch, —; Weber, .5; Counties credited with no decrease have levied the same rate yet they will conduct their affairs on a lower revenue due to the decline in valuation.

Increases are reported in the following counties: Beaver, 1.94; Carbon, .8; Grand, .9; Iron, 2.894; Juab, .5; San Juan, 4.05; Salt Lake, 2; Sanpete, .2; Summit, .2; Utah, 1.7; Wayne 1.3.

### Municipal Taxes

In municipalities some cities show a large increase while others report decreases. Decreases are reported by Beaver City, Brigham City, Honeyville Town, Corinne City, Mendon, Providence, Hyde Park, Lewiston, Helper, Farmington, Roosevelt, Castle Dale, Cedar City, Parowan, Nephi, Fillmore, Meadow, Delta, Seipio, Morgan, Monticello, Blanding, Sandy, Salt Lake, Mant, Joseph town, Kosharene, Richfield, Grantsville, Vernad, Alpine, Mapleton, Payson, Sellen, Santaquin, Springville, Midway.

Increases are reported by Milford, Manion, Garland, Logan, Hyrum, Paradise, Millville, Newton, Clarkston, Tremonton, Green River, Panguitch, Eureka, Mammoth, Oak City, Midvale, Murray, Gunnison, Mayfield, Wale, Monroe, Tooele, Coalton, Lehi, Orem.
